Successful Operation

1 X Asset Used

Target Eliminated

Mission Accomplished

THIS PAGE HAS BEEN LEFT BLANK

Rules of Engagement:

Surveillance Annex A:

- A. There are four categories of strike approval/authorization: (1) Troops in Contact (TIC); (2) Preplanned; (3) Fleeting; and (4) Time-Sensitive Targets (TSTs).
- B. (1) (U) GENERAL GUIDANCE: This establishes the Rules of Engagement (ROE) for all forces under the control of Multi-National Division – Baghdad. Coalition Forces (CF) may establish more restrictive ROE in accordance with their national caveats. Conflicting ROE will be addressed on a case-by-case basis.
- C. (S//REL) DECLARED HOSTILE FORCES. CDR, CENTCOM has designated certain Iraqi military and paramilitary forces (former regime security forces, conventional and/or unconventional air, ground, and naval forces) as declared hostile forces. Since the end of major combat operations, these forces have transitioned from overt conventional resistance to insurgent methods of resistance. This declaration continues to apply to Former Iraqi Military and Paramilitary personnel who are operating as insurgent individuals or groups that continue hostilities against the Iraqi Government and MNF. These individuals and/or groups may be engaged and destroyed. Hostile armaments, munitions, and equipment are also included in this category. All pre-planned kinetic strikes against these targets must be executed in accordance with the collateral damage considerations required by the CDEM and these ROE.
- D. PREPLANNED STRIKES. Approval authority to strike preplanned targets, whether persons or objects, is determined by the type of preplanned target and the level of collateral damage expected. There are six types of preplanned target sets: (1) Non-military elements of former regime command and control and associated facilities, (2) WMD storage facilities, (3) Iraqi infrastructure and Iraqi economic objects, (4) Terrorists, (5) Iraqi lines of communication, and (6) Facilities (associated with Designated Terrorists or Declared Hostile Forces).
- E. COMMAND AND CONTROL AND ASSOCIATED FACILITIES. CDR, CENTCOM has approval authority to strike non-military elements of former regime command and control and associated facilities. This authority has not been delegated further.
